Text-Book of Medical and Pharmaceutical Chemistry (Classic Reprint)

By Elias Hudson Bartley

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Text-Book of Medical and Pharmaceutical Chemistry The present edition has been enlarged and the greater part of it rewritten. This has been made necessary by the fact that within the past few years most of the medical colleges have extended their course of study from two to three years, thus giving more time to the study of chemistry. The recent introduction to therapeutics of a large number of synthetical compounds, has made it necessary to include a description of these remedies, which has added much new material. While all these synthetical remedies have not been introduced, all those best known have found a place. It is believed that this will make the book more useful for reference. Several new tables of analytical tests have been introduced, as a means of comparing the properties of the group of substances so tabulated. A new chapter on Physiological and Clinical Chemistry has been added, which deals with the chemistry of nutrition, foods, digestion, milk, and the urine. This chapter has been made as practical as possible, giving the...
