Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.

States that the Hungarian economy has responded to the challenges of technical progress for only short periods over the past 40 years. Shows that during the last 5 years, channels of technology transfer have been nearly blocked, and that research and development has dropped to 10 years behind international standards. Proposes higher quality standards and pay for technical personnel, and the import of new technologies. 9. 125 Watanabe, Susumu. Employment and Income Implications of the Bio-Revolution: A Speculative Note. *International Labour Review*, May-June 1985, pp. 281-297. Asserts that genetic engineering and advanced propagation techniques have immense potential for the production of new pharmaceuticals and new plant and seed varieties. Explores employment and income effects of these developments in different countries, finding that poor countries, especially in Africa, are the greatest potential beneficiaries. 9. 126 Weiss, Charles and Jequier, Nicholas, eds. *Tech nology, Finance, and Development: An Analysis of the World Bank as a Technological Institution*. Lexington, Mass. , Heath, 1984. 342 pp. Essays on how the World Bank finances and transfers technology, encourages innovation, and builds up technological capacities in Third World countries. Discussed are applications of appropriate technology; the development of water resources, power generation and distribution, and fertilizer production; and the development of international research networks. 9. 127 Willoughby, Michael G. *The Determinants of Technological Advance in Commercial Banking: A Logit Model of Automatic Teller Machine Adoption*. Doctoral dissertation presented to Columbia University, 1986. 196 pp. Specifies a LOGIT model estimating the likelihood of...
