Mathematics for Agricultural Students (Classic Reprint)

By Henry C Wolff

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Mathematics for Agricultural Students Fifth, to include certain material not elsewhere readily accessible to the student of science, for the purpose of rendering the book useful for reference throughout the four years of the college course. Sixth, to select the topics and the amount of material under each topic so that either a half year or a full year may be devoted to the work. In writing this book the author had in mind the preparation of a text which would: First, train the student to do neat and careful work. Second, encourage the student to make further use of elementary Algebra and Geometry. Third, develop in the student the habit of careful and logical thinking. Fourth, train the student to study a problem with a view of discovering the shortest and easiest method of handling it, rather than attacking it by the first thought-of method. Fifth, show the student, by illustrations and exercises, how mathematics may be helpful in pursuing other subjects of study and useful in a practical way. While this book includes enough...
