Brand New Book ***** Print on Demand *****.The Adventures of Piperonel Fox Kitty Cat VOLUME III - RIDING THE RAILS KSN Bedtime Story A scientist and educator from North Florida, Professor McCoy has crafted a charming series of adventure stories that both entertain and edify. Designed to be read to children at their bedtime, they were inspired by the impromptu bedtime stories his father would tell him as a child. Because children learn many of their language skills by listening to adults, these stories incorporate a higher level of vocabulary than what is typically found in children s books. To assist with unfamiliar words and pronunciations, instructional glossaries are provided in addenda at the end of the books, these also include basic science information and simple experiments for kids. Created primarily as lighthearted adventure tales, the stories teach as well, in a subtle yet engaging style much about our world, including the importance of social skills such as cooperation and kindness. Reading these delightful bedtime stories with one s children will forge enduring bonds, and provide them with an enjoyable educational experience, as well as generating many excellent points for discussion. Dedicated to the love of knowledge and the search for truth, KSN Research is endeavoring to revive the tradition of the bedtime story with this series of children s books. By regularly reading to our kids we can help instill in them a love of learning and of literature, attributes which will aid them greatly in adult life.
