Brand New Book ***** Print on Demand *****.Everyday ideas are all around us, but very few ever make it to the market successfully. If you have come up with a concept for a new product or business but have no clue how to commercialize it, you will find this book highly relevant and useful. Not all ideas should be pursued; most people fail in their attempts to commercialize their concepts. There is a harsh reality surrounding the process of transforming a concept to a physical goods or business entity. Without the honest assessment of an idea's profit potential, it is no different than playing the lottery and hoping to win. This book's value lies in its strategic and business-centric approach to helping you ensure that only winning ideas are invested in. The book does this by detailing five major aspects of the concept to commercialization process: (1) who is involved (2) a step by step approach (3) an extensive list of 120 concept-evaluation questions (4) business insights and principles, and (5) a tracking and monitoring framework to keep activities in alignment. It is not a run-of-the-mill type of invention book or startup book that resembles simplified encyclopedia of what needs to be done. Instead, it is a book intended to explore the real core of profit generation combined with the practical knowledge of how to steps. This collection of knowledge can only be divulged with experiences in the trenches but is now available to anyone wishing to achieve the incredible by overcoming the improbable. The book is ideally written for you if...
